LIVE CLASSES ON ZOOM

# What kids & parents say about us.....

"A great way of teaching my son about the world and how it works economically, something I am certain will benefit him in future years."

"I did not know finance could be fun!"

"He absolutely loves your class and told me he's disappointed when it's over and that the time goes by too quickly."

"In every class we learn something new. These classes are very beneficial for me. We always have fun learning together!"

## FunFinance methodology

Responsibility

In our classes we talk about responsibility as a citizen, as a consumer, as an employee and as a business owner.

Global Awareness

We share examples from different cultures and ways of life. We discuss how businesses affect communities and the environment.

Creativity

We encourage creative solutions and opinions. We always emphasize that there are no right and wrong answers.

Critical Thinking

We encourage the analysis of issues. We love looking at the same problem from different perspectives.

Communication & Collaboration

Students are active participants of our classes. They share their opinions at all times. All our activities include open debate and conversation.
